PIYUSH TIWARI

Python Developer | AI/ML Student

Jharkhand, **India | +91 8271276201 | *info.contactpiyush@gmail.com* | *linkedin.com/in/codepiyusss***

github.com/codepiyusss | Portfolio: ***portfolio-phi-fawn-98dglblujq.vercel.app***

Summary

B.Tech Computer Science Engineering (AI/ML) student with hands-on experience in Python, machine learning, data structures, and web development. Built practical AI/ML projects, including an AI-powered voice-cloning detection system, with experience in model development, audio processing, and deployment. Strong interest in solving real-world problems through software and AI-driven solutions.

Education

- **Ramchandra Chandravanshi University** **2024-028**

Bachelor of Technology, Computer Science and Engineering (AI/ML) | **CGPA: 8.18 / 10**
Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

Projects

VoxShield – *AI Voice Deepfake Detector (Team Lead, team of 6)* github.com/codepiyusss/VoxShield

- Developed an AI-powered system for **detecting real vs. AI-generated/voice-cloned speech** using machine-learning techniques.
- Extracted audio features including MFCC, Mel Spectrogram, spectral features, pitch, zero-crossing rate, chroma, and RMS energy using **Librosa**.
- Compared machine-learning models and deployed the prediction API using **Flask**, with a web-based interface for real-time audio analysis.

ATS Check – *Resume Analyzer* github.com/codepiyusss/ATS-Check

- Developed a resume analysis tool that evaluates resumes based on ATS compatibility, formatting, readability, grammar, and keyword relevance.
- Implemented PDF text extraction using pdfplumber with rule-based scoring and optional Gemini-powered analysis.
- Built a simple web interface for uploading or pasting resumes and generating structured feedback.

Technical Skills

Languages: Python, C, Java, JavaScript, HTML, CSS
Frameworks & Libraries: Flask, scikit-learn, Librosa, NumPy, Pandas, Matplotlib
Core CS: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks
Tools & Concepts: Git, GitHub, REST APIs, JSON, Vercel, Vite

Certifications

Machine Learning – Anaconda Inc. (Jul 2026)
Python – HackerRank (May 2026)
Data Visualisation – Forage (Jul 2026)
Data Science & Analytics – HP LIFE (May 2026)
